TECHNY, ILL.

« Located on Highway 42A, Between Glenview and Northbrook »

Techny Park Scene

Beautify Your Home

It is because we know that you are trying to make your home and your community a more beautiful place in which to live, we offer you this list.

Everyone realizes that trees, shrubs and flowers are living ornaments which add very much to the beauty of the home, but many persons have difficulty in selecting the proper material for their respective places. Our Landscaping Department, comprising men of experience, thoroughly familiar with nursery stock, will gladly assist you in selecting material which is both practical and attractive.

If you have landscape work to do, whether your job be large or small, we will be pleased to give you an estimate, together with the assurance of a first-class job.

We are continually propagating a large variety of trees, shrubs, and flowers, and always try to include that which is new and improved, and at the same time thoroughly satisfactory for growing in the Chicago area.

We wish to thank sincerely all who have given us business in the past. The patronage has encouraged us to develop a beautiful stock of plants and has also been a help to our Mission Work.

To our Illinois customers — Add 3% to our prices on account of Retailer's Occupational Tax.

When planting Evergreens mix a generous amount of German Peat Moss with the soil. It keeps the soil from packing and preserves moisture, which is very important in getting trees started properly.

Hedge of Upright Japanese Yew

We are equipped to deliver and plant your Trees

2-2½" 2.25

2½-3" 3.00

3-3½" 4.00

Norway Maple

Prunus Triloba

PLUM — PRUNUS

Cistena (Purple Leaf Plum) — Probably the best of the purple-leaf plums; the trees are dwarfer, more compact, and foliage is of brighter color than other varieties.

2-3' Each \$0.75

3-4' 1.00

4-5' 1.25

Triloba (Flowering Plum) — A small flowering tree; branches covered with light-pink double flowers in early spring.

3-4' Each \$1.00

4-5' 1.25

RED BUD — CERCIS

Canadensis — A small tree of irregular form with heart-shaped leaves; covered with delicate rose-pink blossoms in early spring before leaves appear; needs some winter protection while young.

3-4' Each \$1.00

TULIP TREE — LIRIODENDRON

Tulipifera — A tall pyramidal tree with dark-green bark and very interesting fiddle-shaped, glossy green leaves; flowers light greenish yellow with orange markings resembling tulips; blooms in May and June.

6-8' Each \$2.25

WILLOW — SALIX

Discolor (Pussy Willow) — A large shrub or short-trunked tree, with light-green leaves. The beautiful catkins appear early in spring before the leaves.

5-6' Each \$0.60

6-7'75

CORKSCREW WILLOW

Matsudana Tortuosa—A new willow from France. A very unusual and interesting variety because of its crooked branches.

5-6' Each \$1.25

Vitellina Britzensis (Bronze Willow)

4-5' (bush form) Each \$0.50

Niobe (Wisconsin Weeping)

5-6' Each \$1.25

6-8' 1.75

A large Shade Tree being moved with a good ball of earth

8-10' 2.50

10-12' 3.50

Hardy Flowering Shrubs

ALMOND, FLOWERING — PRUNUS

Glandulosa (Flowering Almond) — An early spring-blooming shrub; branches gaily covered with beautiful double pink flowers.

2-3' Each \$0.75

3-4' Each 1.00

Prunus Triloba (see page 9)

ACANTHOPANAX

Pentaphyllum "Five Leaved Aralia" — Bushy shrub with slender arching branches; ornamental foliage; grows well in the shade and is sometimes used for hedging.

2-3' Each \$0.50

3-4' Each .60

AMELANCHIER — SHADBLOW

Canadensis — A large graceful tree-like shrub which blooms in May; flowers white, slightly tinted pink; maroon-purple fruits.

3-4' Each \$1.00

ARONIA — CHOKEBERRY

Arbutifolia (Red Chokeberry) — Very attractive shrubs with clusters of small white flowers in May; the bright-red berries appear in August and remain until winter; bright crimson foliage in autumn.

2-3' Each \$0.70

ARALIA

Spinosa (Devil's Walking Stick) — Upright heavy stemmed thorny shrub; ornamental foliage.

4-5' Each \$0.60

AZALEA

Mollis (Chinese Azalea) — A dwarf bushy plant covered with delightful orange and flame-colored flowers in May before the leaves; gives a beautiful effect when planted among evergreens or shrubs; probably the best hardy Azalea.

15-18" B & B Each \$2.50; 3 for \$6.50

BARBERRY — BERBERIS

Truehedge Columnberry (Plant Patent No. 110) — The "Ready Made Hedge," upright, dense, and perfectly hardy; requires practically no trimming to keep a compact hedge; foliage changes to brilliant scarlet in fall. The bright red berries are very showy in fall and winter.

Size	Each	25	100
15-18"	\$0.45	\$7.50	\$28.00
18-24"60	9.75	36.00

Japanese (Thunbergia) — This plant has small bright-green leaves, changing to brilliant scarlet in fall; the showy scarlet fruits last all winter.

18-24" Each \$0.35; Doz. \$3.50

24-30" Each .45; Doz. 4.50

Red-Leaved (Thun. Atropurpurea) — Similar to the Japanese variety, but the foliage is a rich bronzy-red and changes to orange-scarlet in fall.

15-18" Each \$0.50; Doz. \$5.00

18-24" Each .60; Doz. 6.00

BEAUTY BUSH — KOLKWITZIA

Amabilis — Very graceful shrub with small funnel-shaped pink flowers; blooms freely after plant is well established.

1½-2' Each \$0.50

2-3' Each .75

BRIDAL WREATH (See Spirea Vanhouttei)

BUCKTHORN — RHAMNUS

Frangula (Glossy Buckthorn) — A hardy vigorous shrub with glossy leaves and black berries; branches speckled white in winter; grows rather large.

3-4' Each \$0.50

BUDDLEYA — BUTTERFLY BUSH

Fortune (Plant patent No. 206) — An outstanding new variety of Buddleya; it is a low-growing neat compact bush with flower panicles 12 to 18 inches long; color, clear lavender-blue; flowers last well when cut. Field-grown plants. Each 75c

Hartwegi — New bright lavender. Field-grown plants. Each 75c

Magnifica — Long spikes of lilac-blue. Field-grown plants. Each 35c

I'le de France — Long flower spikes of bright rosy-purple, field-grown plants. Each 35c

BURNING BUSH — EUONYMUS

Alatus — A beautiful slow-growing shrub, having very interesting cork-like flanges on the branches; bright scarlet fruit; leaves turning to brilliant scarlet in fall.

3-4' Each \$0.60

4-5' Each .75

European — Deep-green foliage; orange red fruits in autumn.

3-4' Each \$0.60

4-5' Each .75

HANSEN'S BUSH CHERRY

Prunus Besseyi — Valuable for its handsome plum-like fruits, which may be eaten raw or used for preserves. They have a spicy tartness not found in our common cherries. The plants have special ornamental value, are of medium size and quite bushy. The foliage is bright glossy green turning to rich golden-red in fall.

3-4' Each \$0.75

COTONEASTER

Acutifolia (Peking Cotoneaster) — Upright tall-growing variety, with pinkish flowers; fruits black; excellent for large hedges.

2-3' Each \$0.60

Divaricata (Spreading Cotoneaster) — A round bush with many fine lateral branches; small, round, glossy, deep-green leaves; fruits dark red.

2-3' B & B Each \$1.25

CURRENT — RIBES

Alpina (Alpine Currant) — A very attractive dwarf compact shrub; leaves are dark green and appear very early in spring; flowers small greenish yellow.

15-18" Each \$0.40

18-24" Each .60

DEUTZIA

Lemoine — A semi-dwarf compact shrub producing clusters of single white flowers; blooms in May.

1½-2' Each \$0.45

2-3' Each .60

Truehedge
Columnberry

Japanese
Barberry

DOGWOOD — CORNUS

Variegated (Elegantissima) — Leaves are variegated with green and yellow coloring; bark is bright red in winter.

- 3-4' Each \$0.50
- 4-5' Each .60

Red-Branched (Siberica) — Valuable shrubs for group planting, especially for color-effect in winter; branches bright red; bluish-white fruit.

- 3-4' Each \$0.50
- 4-5' Each .60

Yellow (Lutea) — Bright-yellow bark, plants usually not as tall as the red-barked variety.

- 2-3' Each \$0.35
- 3-4' Each .50
- 4-5' Each .60

ELDER — SAMBUCHUS

Cut-leaf (Acutiloba) — A tall-growing shrub with dark-green finely cut leaves; purple-black edible berries.

- 4-5' Each \$0.50
- 5-6' Each .60

Golden (Nigra Aurea) — Golden yellow foliage; tall strong plants, excellent in group planting for color-effect; should be pruned heavily each year.

- 4-5' Each \$0.50
- 5-6' Each .60

GOLDEN BELLS — FORSYTHIA

One of the first shrubs to bloom in spring, the golden yellow, bell-shaped flowers appear before the leaves.

Intermedia — Bright-yellow flowers on long arching branches.

- 3-4' Each \$0.40
- 4-5' Each .50
- 5-6' Each .60

Spectabilis — A good grower with broad, heavy bell-shaped flowers.

- 3-4' Each \$0.40
- 4-5' Each .50
- 5-6' Each .60

HONEYSUCKLE — LONICERA

Tall spreading shrubs with fragrant flowers in May and June; they produce attractive berries which last until fall.

Bella Albida — White, berries red.

- 3-4' Each \$0.50
- 4-5' Each .60
- 5-6' Each .70

Korolkowi (Blue Leaf Honeysuckle) — This new variety has very attractive blue-green foliage and red berries; very useful for cutting.

- 1½-2' Each \$0.60

Morrowi — White-flowering.

- 4-5' Each \$0.50
- 5-6' Each .65

Tartarica — Pink-flowering.

- 4-5' Each \$0.50
- 5-6' Each .65

HYDRANGEA

Arborescens (Snowball Hydrangea, or "Hills of Snow")

- Large white flowers from July to September.
- 1½-2' Each \$0.50
- 2-3' Each .60

Paniculata Grandiflora (P.G.) — Blooms in August and September; flowers large white, changing to pink and bronze.

- 1½-2' Each \$0.50
- 2-3' Each .75

INDIAN CURRANT (See Snowberry)

JETBEAD — RHODOTYPOS

Kerrioides — A valuable shrub which grows to 6 feet tall; its bright-green foliage is particularly noticeable in fall when other shrubs are bare; four-petaled white flowers borne singly in May and June.

- 3-4' Each \$0.50
- 4-5' Each .60

KERRIA

Japonica — A handsome shrub with bright-green foliage growing four to five feet tall; graceful drooping branches; blooms in June with deep yellow flowers.

- 1½-2' Each \$0.70
- 2-3' Each 1.00

Hydrangea P. G.

Japonica Flora Plena (Double Jap. Kerria) — This plant is the same as the above except that it has beautiful double golden yellow flowers, resembling roses.

1½-2'	\$0.75
2-3'	1.00

LILAC — SYRINGA

French — Grafted varieties in various shades of white, lilac, and purple.

3-4'	Each \$1.00
4-5'	Each 1.50
5-6'	Each 2.00

Persian — Bush of medium height with slender graceful branches producing large lilac-purple flowers; blooms very freely.

2-3'	Each \$0.50
3-4'	Each .60
4-5'	Each .75

Vulgaris (Common purple Lilac)

4-5'	Each \$0.60
5-6'	Each .75

NINEBARK — PHYSOCARPUS

Monogynus (Dwarf Ninebark) — A neat low-growing shrub up to 3 feet, with small deeply lobed leaves, with whitish flowers in umbels. Excellent for low hedging or border.

1½-2'	\$0.50
2-3'60

POTENTILLA — CINQUEFOIL

Farrari — A novelty; low-growing shrub with very fine-leaved ornamental foliage and beautiful buttercup-yellow flowers; blooms all summer; excellent for the rockery or border.

15-18"	\$0.50
18-24"75

Veitchii — A medium-sized shrub suitable for the border; producing creamy-white single flowers.

2½-3'	Each \$0.50
-------	-------	-------------

PHILADELPHUS — MOCK ORANGE

Avalanche — A low-growing variety which blooms profusely with single, snow-white fragrant flowers on drooping branches.

3-4'	Each \$ 0.50
4-5'	Each .60

Coronarius — A tall-growing shrub blooming in May with creamy-white flowers.

3-4'	Each \$0.40
4-5'	Each .50
5-6'	Each .60

Lemoine — A semi-dwarf variety of upright habit; creamy-white fragrant flowers and small leaves.

3-4'	Each \$0.50
4-5'	Each .60

Nivalis — This variety has large semi-double flowers.

4-5'	Each \$0.60
------	-------	-------------

Virginalis — Double or semi-double white flowers; very fragrant and a profuse bloomer.

3-4'	Each \$0.50
4-5'	Each .70
5-6' (bushy)	Each 1.00

PRIVET — LIGUSTRUM

Amurense (Amoor River North)

18-24"	10 for \$1.75; 100 for \$15.00
2-3' (heavy)	10 for \$2.00; 100 for \$17.50
3-4' (heavy)	10 for \$2.50; 100 for \$22.50

Regalianum (Regal's Privet) — Low-spreading branches.

18-24"	10 for \$4.00; 100 for \$30.00
2-3'	10 for 5.00; 100 for 40.00

QUINCE — CYDONIA

Japonica (Flowering Quince) — A medium shrub, with dark glossy foliage; growth is bushy and informal; blooms in early spring with scarlet red flowers; produces quince-shaped fruits that are very fragrant.

1½-2'	Each \$0.50
-------	-------	-------------

Dwarf-Flowering Quince — Similar to the above but not so tall; flowers orange scarlet.

1½-2'	Each \$0.50
2-3'	Each .75

ROSE OF SHARON — ALTHEA

An upright shrub, blooming freely in fall with richly colored flowers resembling the tender Hibiscus.

Red — White — Pink, 3-4'	Each \$0.75
--------------------------	-------	-------------

ROSA RUGOSA

Hansa — One of the most desirable shrub roses; flowers reddish-purple; blooms all summer; grows 5 feet tall. **Each 60c**

Hugonis (Golden Rose of China) — An old favorite, extremely hardy, literally covered with fragrant, single yellow flowers in May; has attractive small foliage; excellent to use as specimens or among other shrubbery; grows about 6 feet tall. **Each 70c**

RUSSIAN OLIVE — ELAEAGNUS

Angustifolia — A very useful shrub for large group planting or for screening; bark dark green; foliage a silvery gray; flowers deep-golden yellow; olive-like fruits.

3-4'	Each	\$0.50
4-5'	Each	.60
5-6'	Each	.75

SNOWBERRY — SYMPHORICARPOS

Racemosus (Snowberry) — This plant resembles the Spirea; has small rose-colored flowers in June; fruits are round and milky white and remain on the bush far into the winter; ideal for shady places, also does well in the sun.

2-3'	Each	\$0.35
3-4'	Each	.50

Indian Currant (Coral-Berry) — Similar to the Snowberry, except that the fruits are small bright coral-red, and hanging in long clusters.

2-3'	Each	\$0.35
3-4'	Each	.50

SORBARIA

Sorbifolia (False Spirea) — One of the first shrubs to show leaves in the spring; large fluffy heads of white flowers in June.

3-4'	Each	\$0.50
4-5'	Each	.60

SPIREA

Anthony Waterer — A dwarf variety with rosy-crimson flowers in midsummer.

12-18"	Each	\$0.35
18-24"	Each	.50

Arguta (Snow Garland) — A slender upright variety with graceful branches; the first to bloom in May.

2-3'	Each	\$0.40
3-4'	Each	.60

Callosa Alba — A dwarf variety similar to Anthony Waterer, but flowers are white; blooms nearly all summer.

18-24"	Each	\$0.50
--------	------	--------

Frobeli (Frobel Spirea) — One of the best low-growing shrubs for general use; produces flat clusters of rose-pink flowers from June to October; leaves are bronze-red when they first appear, changing to dark green.

1½-2'	Each	\$0.40
2-2½'	Each	.50

Trichocarpa (Korean Spirea) — Produces large flat heads of white flowers with a distinct eye, in dome-shaped clusters.

2-3'	Each	\$0.50
3-4'	Each	.60

Vanhouttei (Bridal Wreath) — A well-known variety with graceful arching branches of pure white flowers in May.

3-4'	Each	\$0.35
4-5'	Each	.50

SUMAC — RHUS

These plants are grown especially for their ornamental and colorful foliage in the fall.

Canadensis (Fragrant Sumac) — A low shrub with interesting three-parted leaves; yellow flowers in clusters followed by red berries; bright scarlet foliage in fall.

1½-2'	Each	\$0.50
-------	------	--------

Laciniata (Cut-leaf Sumac) — Similar to Typhina except that it has "ferny" foliage.

3-4'	Each	\$0.60
4-5'	Each	.70
5-6'	Each	.90

Typhina (Stag-horn Sumac) — A rugged tall-growing variety; flowers in June and July followed by red fruits.

4-5'	Each	\$0.40
5-6'	Each	.50
6-8'	Each	.90

TAMERIX

A tall-growing shrub with fine feathery foliage, similar to that of the Juniper; produces small spikes of dainty rose-pink flowers.

3-4'	Each	\$0.40
4-5'	Each	.60
5-6'	Each	.75

VIBURNUM

Carlesi (Fragrant Viburnum) — An attractive shrub from Korea; blooms in June with umbels of delicate pure white flowers, which have a delightful spicy fragrance; buds are waxy pink before opening; a bushy and slow-growing plant.

2-2½' B & B	Each	\$2.50
-------------	------	--------

Dentatum (Arrowwood) — Strong grower with bright-green heart-shaped leaves, turning to purple-red in fall; flowers creamy white in May and June.

3-4'	Each	\$0.50
4-5'	Each	.60
5-6'	Each	.75

Lantana (Wayfaring Tree) — Has wrinkled Lantana-like leaves; blooms in May and June with white flowers; fruits crimson to black.

2-3'	Each	\$0.40
3-4'	Each	.60
4-5'	Each	.75

Lentago (Nannyberry) — A tall-growing variety with creamy-white fragrant flowers; blooms May to June; fruits blue-black.

3-4'	Each	\$0.60
4-5'	Each	.75

Molle (Kentucky Viburnum) — Similar to Dentatum, but slower in growth, and more attractive foliage; flowers white; April to May; blue-black fruit.

3-4'	Each	\$0.60
------	-------	------	--------

Opulus Sterile (Common Snowball) — An old-fashioned well-known shrub.

3-4'	Each	\$0.40
4-5'	Each	.50

Opulus (High Bush Cranberry) — A very useful shrub producing pure-white flowers in cymes

about 4 inches across; the large bunches of crimson-red berries remain on the bushes throughout the winter.

3-4'	Each	\$0.60
4-5'	Each	.75
5-6'	Each	.90

Tomentosum — Flat umbel-like cymes of white flowers; blooms in May. Deep-green corrugated leaves; fruits red changing to blue-black.

4-5'	Each	\$0.40
5-6'	Each	.50

WEIGELA

Eva Rathke — A slow-growing variety with very attractive carmine-red flowers in July.

2-3'	Each	\$0.60
3-4'	Each	.75

Floribunda (Crimson Weigela) — A vigorous variety producing a profusion of crimson flowers in June and July.

2-3'	Each	\$0.60
------	-------	------	--------

Rosea — An upright variety with rose-pink flowers in June.

3-4'	Each	\$0.50
4-5'	Each	.60

WILLOW (See Page 10)

Hedging

CURRENT — RIEBES

Alpina (Alpine Currant)

15-18"	Each	40c; Doz. \$4.00
18-24"	Each	60c; Doz. 6.00
24-30"	Each	75c; Doz. 7.50

BARBERRY — BERBERIS

Truehedge Columnberry (Plant Patent No. 110) — The "Ready Made Hedge" upright, dense, and perfectly hardy requires practically no trimming to keep a compact hedge; foliage changes to brilliant scarlet in fall. The bright-red berries are very showy in fall and winter.

15-18"	..	Each	45c; 25 for \$7.50; 100 for \$28.00
18-24"	..	Each	60c; 25 for \$9.75; 100 for \$36.00

Japanese (Thunbergia)

18-24"	Each	35c; Doz. \$3.50
24-30"	Each	45c; Doz. 4.50

Red-Leaved (Thun. Atropurpurea)

15-18"	Each	50c; Doz. \$5.00
18-24"	Each	60c; Doz. 6.00

NINEBARK — PHYSOCARPUS

Monogynus (Dwarf Ninebark)

1½-2'	Each	50c; Doz. \$5.00
2-3'	Each	60c; Doz. 6.00

PRIVET — LIGUSTRUM

Amurence (Amoor River North)

18-24"	10 for	\$1.75; 100 for \$15.00
2-3'	(heavy) 10 for	\$2.00; 100 for \$17.50
3-4'	(heavy) 10 for	\$2.50; 100 for \$22.50

Regalianum (Regal's Privet)

18-24"	10 for	\$4.00; 100 for \$30.00
2-3'	10 for	\$5.00; 100 for \$40.00

Various other types of hedge plants may be found listed among shrubbery, such as Honeysuckle, Lilacs, Spirea, etc.

Fruit Trees

We offer only such varieties of fruit trees which are hardy and dependable, especially suitable for this district.

APPLE

Beacon — Red; summer
Cortland — Dark red; winter
Gravenstein — Red; winter
Jonathan — Red; winter
McIntosh — Dark red; winter
Maiden Blush — Yellow and blush; late summer
Northern Spy — Red; winter
Wealthy — Red; early fall
Wolf River — Yellow and red; very large; winter
Yellow Transparent — Early summer
York Imperial — Red; winter
 Size: 11/16 inch, 4½ feet and up. Price: **Each \$1.00**

We can furnish the following varieties in a heavier size, 2 years older than those listed above. These trees have had an additional transplanting; are dug with ball and burlapped.

Apple:

Jonathan — Red; winter
Maiden Blush — Yellow and blush; late summer
Wagner — Red; winter
Winesap — Red; winter

Pear:

Flemish Beauty — Sheldon
 Price: **Each, B & B, \$2.50**

PEACHES

Champion — Extra hardy, free-stone; creamy white with red cheek, flesh white
Polly — Very hardy, large free-stone; blushed, flesh white.
 Size: 11/16 inch and up. Price: **Each 90c**

CHERRIES

Early Richmond — Large Montmorency
 Size: 11/16 inch and up. Price: **Each \$1.15**

PEARS

B. de Anjou — Kieffer — Lincoln
 Size: 11/16 inch, 4½ feet and up. Price: **Each \$1.00**

DWARF PEARS

The Dwarf Pears are ideal where space is limited. They can be planted as close as 12 feet apart. They are just as hardy as the Standard trees and bear fruit when very young.

Seckel — **Duchess** — **Kieffer**
 Size: 5/8 inch and up. Price: **Each \$1.25**

PLUMS

The following are probably the hardiest plums grown; the trees bear when very young, and fruits are large and well flavored.

Hanska — Bluish red
Underwood — Red
Waneta — Bluish red
 Size: 11/16 inch and up. Price: **Each \$1.00**

EUROPEAN PLUMS

Bradshaw — Large dark red
Lombard — Medium violet red
 Size 11/16 inch and up. Price: **Each \$1.00**

GRAPES

Caco — Very large fruit, rich bronzy red; delightful flavor. **Two-year plants** — **Each 50c**
Concord — The most popular black grape. **Two-year plants** — **Each 35c**
Diamond — The leading white grape; excellent quality. **Two-year plants** — **Each 35c**

Hardy Climbing Vines

Boston Ivy — Ampelopsis Veitchii

A well-known hardy Climber for covering buildings or walls, clings well to the surface without support. **Two-year dormant plants** — **Each 50c**
Potted plants — **Each 70c**

Clematis Henryi — Large white flowers to 6 inches in diameter. Plant in rich well-drained soil.
Two-year potted plants — **Each 90c**

Clematis Jackmanii

The hardiest of the large-flowering Clematis; color rich deep velvety-purple; blooms in mid-summer. Should be planted in a well-drained location. **Two-year potted plants** — **Each 90c**

Clematis Paniculata

Blooms in September with large sheets of small pure white, fragrant flowers. **Two-year dormant plants** — **Each 50c**

Boston Ivy

Trumpet Creeper — Bignonia Radicans

A fast-growing hardy climber producing brilliant orange-scarlet trumpet-shaped flowers, clings tightly to posts or trellises with numerous roots along the stem: **Two-year plants — Each 50c**

Dutchman's Pipe — Aristolochia

A fast-growing climber, with large rich dark-green heart-shaped leaves; excellent for porch or archway. Produces a heavy shade. Thrives well in sun or shade.

Strong plants — Each \$1.25

CLIMBING HONEYSUCKLE — LONICERA

Hall's Climbing — A very hardy vine, suitable for covering trellises, trunks of trees or fences. Blooms from July to October, with white flowers, foliage almost evergreen. **Four-year plants — Each 60c**

Heckrotti (Everblooming Climbing Honeysuckle) —

A very remarkable variety with large flowers that are scarlet outside and golden-apricot inside; blooms from June to frost. **Two-year potted plants — Each 70c**

Sempervirens (Scarlet Trumpet Honeysuckle) — Al-

most evergreen; a good climber that blooms freely with scarlet trumpet-shaped flowers.

Two-year dormant plants — Each 50c

Potted plants — Each 70c

Hardy Perennials

Perennials are becoming more and more the feature of the American gardens. No doubt the reason for this is because with perennials the garden scene changes from week to week as each variety begins to bloom, always offering the interested gardener something to look forward to. In this respect, they are much more appealing to the American than annuals, which are quite the same throughout the summer and have the tendency to become monotonous.

The perennials are especially adaptable to informal plantings, lending themselves to variations according to the taste of the individual gardener.

We are glad to say that this year we are offering a larger list of perennials than ever before. Many of the varieties are new and quite rare, and all plants offered have been grown in our Gardens. Our perennial beds have been well prepared with rotted manure and peat moss, which assures our customers of getting plants with a good strong root system, which is the most important part of the plant.

If you have the opportunity, stop in at our Gardens from time to time during the blooming season, at which time it is easy to select plants according to your taste.

Varieties marked * are suitable for growing in shady or partially shady places.

ACHILLEA — MILFOIL

These are useful as garden flowers, also excellent for cutting.

Mont Blanc — An excellent variety for summer cutting; blooms over a long period with pure-white flowers. **Each 20c**

Parker — Tall variety with deep yellow flower heads. **Each 20c**

Umbellata — A dwarf variety with gray woolly foliage and white flowers. **Each 20c**

Perry's White — Pure white blossoms. **Each 25c**

Senecio — A very useful yellow creeper. **Each 25c**

See our Perennial Plants in bloom

ACONITUM — MONKSHOOD

- * **Napellus, Spark's Variety**—Glistening violet blue; suitable for shady places; blooms in July and August. **Each 25c**

AGROSTEMA

- Walkeri** — An attractive perennial with silvery foliage, and carmine-red flowers; about 2 feet tall. **Each 35c**

ALLIUM — CHIVES

- An attractive plant for the rock-garden about 1 foot high; umbel-shaped flowers in July and August. **Purple or yellow. Each 20c**

ALYSSUM — BASKET OF GOLD

- Showy, low-growing, spring-flowering plants; excellent for edging.

- Saxatile Compactum** — Masses of bright yellow flowers in the spring. **Each 25c**

AJUGA — BUGLE

- * **Reptans** — A low creeping plant with dark-green glossy leaves, with purplish blue flowers; excellent as a ground cover in shady places or in the rockery. **Each 20c**

ANCHUSA — ALKANET

- Dropmore** — A tall plant with rich blue flowers. Fine for back of border; blooms from June to late summer. **Each 20c**

- * **Myosotidiflora** — A dwarf plant, 12 to 18 inches, with beautiful blue flowers resembling Forget-me-nots. **Each 20c**

ANDROSACE — ROCK JASMINE

- Sarmentosa** — An easy variety to grow; produces rosettes of silky foliage and pink flowers which resemble verbenas; about 6 inches high. June and July. **Each 50c**

ANEMONE — WINDFLOWER

- Japonica** — A valuable perennial, blooming from August until heavy frost; a good cut-flower. Protect with 2 to 3 inches of leaves during the winter. **Each 25c**

- Pulsatilla** — Grows 9 to 10 inches high, producing violet to purple flowers in April and May. Plant in full sun. **Each 25c**

ANTHEMIS — CHAMOMILE

- Kelwayi (Hardy Marguerite)** — A daisy-like golden-yellow flower, blooms in profusion nearly all summer. **Each 20c**

- St. John** — This variety is similar to the above, except that the flowers are intense orange in color. **Each 50c**

- Moonlight** — A fine plant for the border, about 2½ feet high, bushy and in bloom all summer; pale-yellow flowers about 2½ inches across; fine for cutting. **Each 35c**

AQUILEGIA — COLUMBINE

- These are very graceful and attractive plants, which grow about 2 feet tall and bloom in spring and early summer; thrive well in the shade.

- * **Crimson Star** — Very large flowers, with crimson sepals and spurs, and white petals. **Each 25c**

- * **Flabellata Nana** — A dwarf variety 8 to 10 inches tall with ivory-white flowers. **Each 35c**

- * **Mrs. Elliot Scott's Strain (Long-spurred Hybrids)** — Beautiful range of colors, mixed. **Each 20c**

ARABIS — ROCK-CRESS

- Alpina** — Mats of clear white flowers in the spring; foliage always ornamental. **Each 20c**

ARENARIA — SANDWORT

- Grandiflora** — An excellent rock plant, covered with white flowers in May. **Each 25c**

- Verna** — A prostrate creeping plant with flat leaves. **Each 25c**

ARTEMISIA — SOUTHERNWOOD

- Very useful plant in the garden; can also be cut and used as fillers for bouquets.

- Lactiflora** — Grows 3 to 4 feet tall and blooms the latter part of August and September, with creamy white flowers, resembling the Astilbe. **Each 25c**

- Silver King** — Attractive foliage of frosted silver. 30 inches. **Each 20c**

ASCLEPIAS — BUTTERFLY FLOWER

- Tuberosa** — Bright orange flowers on plant about 18 inches tall; blooms in July and August; good cut-flower. **Each 20c**

ASPARAGUS

- Pseudoscaber "Lacy Veil"** — A recent introduction of ornamental Asparagus; unexcelled for cut-greens in flower arrangements, bouquets, etc.; grows about 2½ feet high, has beautiful green plumose foliage. **Each 75c**

ASTER — MICHAELMAS DAISY

- These are very showy plants which bloom in September and October.

- Barr's Pink** — 4 feet; deep rose-pink; very free blooming. **Each 25c**

- Baby's Breath Aster** — A variety with very small white flowers resembling Baby's Breath, about 2 feet tall. **Each 25c**

Beechwood Challenger — A nice clear red with prominent yellow center; good foliage; considered to be the best red variety. **Each 50c**

Campbell's Pink — A splendid variety for border or low hedge; has beautiful foliage all summer, dwarf, broad and compact; completely covered with light-pink flowers in fall. **Each 50c**

Harrington's Pink — Clear soft rose-pink; this variety has attracted much attention because of its lovely shade of pink; very free-blooming. **Each 50c**

Feltham's Blue — Blooms very freely with large blue flowers; from 4 to 5 feet tall. **Each 20c**

Mount Everest — Very choice white Aster; considered to be the best white; well shaped plants with large white flowers in pyramids; blooms right down to the ground; 3 to 4 feet. **Each 35c**

White Lady — A well known white; 3 to 4 feet. **Each 20c**

DWARF HARDY ASTERS

Countess of Dudley — Compact bushes completely covered with clear-pink flowers 12 inches. **Each 25c**

Marjorie — Extra large flowers, of bright rose-pink; height 9 inches. **Each 20c**

Ronald — Pleasing shade of bright lilac-pink; very showy, height about 15 inches. **Each 20c**

Snowsprite — A dwarf variety of semi-double white flowers; height 12 inches. **Each 20c**

Victor — Dwarfest of all, with flowers of light lavender-blue, height 8 inches. **Each 20c**

ALPINE ASTERS

Alpina (Blue Mountain Daisy) — Large flowers of lavender-blue with orange center; blooms in June; 8 inches. **Each 20c**

Frikarti — Wisteria-violet, blooms from August until frost; large flowers; height 24 to 30 inches. **Each 25c**

Star of Eisenach (Wartburg Star) — Large bright lavender-blue flowers with yellow center, measuring 4 inches across. **Each 35c**

AUBRIETIA — RAINBOW ROCK-CRESS

Dainty creeping plants in mixed colors, of white, pink, lavender and violet. They bloom in spring and summer, and blend beautifully with most rock-garden plants. **Each 25c**

BAPTISIA — FALSE INDIGO

* **Australis** — Large lupine-like flowers which bloom in June; deep blue; very hardy and satisfactory; 2 feet. **Each 25c**

BETONICA — BETONY

* **Spicata** — A fine border perennial about 2 feet tall; blooms nearly all summer with spikes of deep-rose-purple flowers. **Each 20c**

BLEEDING HEART (See Dicentra)

BUDDLEYA — BUTTERFLY BUSH

Fortune (Plant Patent No. 206) — An outstanding new variety of Buddleya; it is a low-growing neat compact bush with flower panicles 12 to 18 inches long; color, clear lavender-blue; flowers last well when cut. **Each \$1.00**

Hartwegi — An outstanding new variety, very hardy and a profuse bloomer; large bright lavender flowers; tips of flowers open before the basal flowers have faded. **Each 75c; 3 for \$2.00**

Magnifica — Long spikes of lilac-blue flowers. **Each 35c**

I'le de France — Long flower spikes of bright rosy purple. **Each 35c**

Coreopsis

Lilium Formosanum

Gaillardia

with colorful Hardy Phlox

BOLTONIA — FALSE CHAMOMILE

Latisquama — Single pink, aster-like flowers, blooming profusely in August and September. **Each 20c**

CALLIRHOE — POPPY MALLOW

* **Involucrata** — A trailing plant with finely divided foliage, and saucer-shaped flowers of bright rosy crimson with white centers; blooms profusely all summer and fall. **Each 25c**

CALLUNA — HEATHER

Vulgaris (Scotch Heather) A low-growing shrubby perennial; blooms freely with small bell-shaped rose-pink flowers. **Each 50c**

CARNATION (See Dianthus)**CAMPANULA — BELL FLOWER**

* **Carpatica**—A beautiful plant for edging the hardy border, or for the rockery; grows in compact tufts; 8 inches high with clear blue flowers. **Each 20c**

* **Carpatica Alba** — A white-flowering form of the preceding. **Each 25c**

* **Garganica** — Compact glossy foliage; flowers on spike 10 to 15 inches tall; light blue, star-shaped flowers with a small white eye. **Each 35c**

Glomerata Superba — Beautiful dark-violet flowers, borne on clusters, at the top and all the way up the stalks, in June and July. **Each 35c**

Medium (Canterbury Bells) — White, blue, and pink. **Each 20c**

Persicifolia Telham Beauty — Large bell-shaped single flowers of rich blue; 2-2½ feet tall; fine for the border or for cutting. **Each 35c**

CERASTIUM — SNOW-IN-SUMMER

Tomentosum — A plant trailing over the rocks with silvery white foliage and producing an abundance of snow-white flowers in May. **Each 20c**

CHELONE — SHELL FLOWER

Barbata — A desirable cut-flower, growing 2 to 3 feet tall, with flowers varying in shade from pink to cherry-red; very dainty. **Each 20c**

CHRYSANTHEMUMS — HARDY GARDEN VARIETIES

Amelia — Also called Pink Cushion, or Azalea-flowered Chrysanthemum; dwarf and very early; double light-pink blooms.

Early Bronze—Extremely early, lively bronze yellow.

Excelsior — Well known, bright yellow; tall.

Fred Peele — Yellow, tipped maroon, pompon, one of the best in color and hardiness.

Jean Treadway — Rose pink; large.

Johanna — Very early white.

Indian Summer — Single, bronze.

Mrs. A. Jaeneicke — Pompon, crimson-red.

Mrs. H. Harrison — Large pompon, a delightful bouquet type, shell-pink, with silver lining.

Nuggets — Yellow button.

October Girl — Semi-double; bright pink.

Philadelphia — Deep rose-pink, almost red; large pompon; very resistant to early frost.

R. Marion Hatton — Large free-flowering yellow.

Red Cushion — Free-blooming red; cushion type.

Red Dotty — A pleasing red of medium height.

Rycroft Glory — Very early; fine aster-like golden yellow.

Ruth Cummings — Large pompon; terra cotta bronze.

Tasavia — Large creamy white.

Zenobia — Yellow pompon.

Any of the above varieties: Young plants, each 20c, Field clumps, each 35c

CHRYSANTHEMUM — KOREAN HYBRIDS

These plants grow about 2 feet tall, and are just covered with daisy-like flowers, in very unusual and pleasing colors.

Ceres — Old gold blended with chamois-yellow, dusted with coppery bronze.

Daphne — Flowers 2 inches across; a lovely shade of daphne-pink, with a sheen of lilac-rose.

Diana — Rose-pink, mixed with soft salmon.

Hebe — Luminous pink with silvery halo; golden yellow center. **Each 35c**

Innocence — Early blooming white

Mercury — Bronze-red changing to coppery bronze.

Pysche — Very large single flowers of a lively shell-pink. **Each 35c**

Vulcan — Glowing bronze-crimson; a profuse bloomer.

Any of the above varieties; Each 25c, except where noted

CHRYSABOLTONIA

Pulcherima (Chrysanthemum Erubescens) — A new introduction from Europe; a very interesting Hybrid of Chrysanthemum Zawadskii and Boltonia Latisquama; about 30 inches high covered with daisy-like soft salmon-pink flowers from early September to frost; foliage somewhat resembles that of the Chrysanthemum. **Each 35c**

COREOPSIS — TICKSEED

Lanceolata Grandiflora — An improved variety with large yellow flowers, one of the best hardy plants. **Each 20c**

Mayfield Giant — A tall variety with very large flowers and long firm stems; excellent for cutting. **Each 25c**

CRUCIANELLA — CROSSWORT

Stylosa — Early flowering hardy perennial with bright-purple flowers. Height 6 in. **Each 20c**

CLEMATIS

Integrifolia — An interesting dwarf border plant, with porcelain-blue flowers from June to August; 18 to 20 inches tall. **Each 35c**

CLEMATIS CLIMBERS (See Page 16)

Pacific Hybrid Delphiniums

DELPHINIUMS — LARKSPUR

The Delphiniums are probably the most admired of all our garden flowers, on account of their stately spikes of the most pleasing shades of blue, violet and orchid flowers. Some of these plants should be in every garden. If you have difficulty in keeping them as perennials, try growing them as annuals. The seedlings are available in pots at the time when annuals are set out. If planted then, they will give two, and usually three, crops of blossoms in summer and fall if cut to the ground each time after blooming.

PACIFIC HYBRIDS AND HOODACRES

Recognized as the World's Best in Delphiniums. Flower spikes extremely long and florets very large and well placed. Have had individual florets up to 3 inches across in our seedling beds last summer. These plants contain a complete color range, from white and the delicate lavender shades to the deepest violet and purples.

We have many of our plants labeled as to color and also numbered according to quality, which was done while they were in bloom. We offer these **choice, Year-old Clumps** at **\$1.00, \$2.00 and \$3.00 each, according to quality.** You may select your plants while in bloom if you wish. They then transplant nicely if they are cut down. They will come up and bloom again the same season.

Potted Seedlings grown from seed of our **choicest** plants. **Doz. \$1.50**

Wrexham, Blackmore and Langdon Hybrids — Clumps, **Each 25c; Dozen \$2.50**

CHINESE DELPHINIUM

These plants grow from 2 to 3 feet high, have fern-like foliage with panicles of gentian-blue flowers; excellent for the border and for cutting for small bouquets.

Album Grandiflorum — A white-flowered variety; about 3 feet. **Each 35c**

Azureum Grandiflorum — Azure-blue; about 3 feet. **Each 35c**

Cambridge Blue — Clear Cambridge blue. **Each 35c**

Ultramarine — Very dwarf; pure blue. About 12 inches. **Each 35c**

DESMODIUM

Penduliflorum — A lovely shrub-like plant with slender arching branches covered with hundreds of drooping racemes of liquid-purple flowers, making a gorgeous display in autumn. Should be cut down each spring. **Each 50c**

DICENTRA — BLEEDING HEART

* **Eximia** — A dwarf-growing variety, with finely cut foliage and showy racemes of pink flowers blooming all summer. **Each 25c**

* **Spectabilis** — A beautiful old-fashioned variety up to 3 feet high, fine for the shady border or for planting in clumps. **Each 35c**

DIANTHUS BARBATUS — SWEET WILLIAMS

Old favorite of the garden, blooming profusely during May and June.

Blood-red — Rich deep red. **Each 20c**

Diadematus — Crimson, white eye. **Each 20c**

Pink Beauty — delicate pink. **Each 20c**

DIANTHUS — HARDY GARDEN PINKS

Beatrice — Double salmon pink, 10 inches tall, blooms all summer. **Each 25c**

Chabaud — Various shades of bright red and crimson double flowers. **Each 25c**

Deltoides (Maiden Pink) — Low-creeping plants, with deep rose-pink flowers, blooming in profusion in June and July. **Each 20c**

Golden Sun — Early-flowering double clear yellow. **Each 35c**

Knappi — A light-yellow variety about 15 inches tall. **Each 25c**

Plumaris (Clove Pink) — Fragrant pinks with single and double flowers. **Each 20c**

Rose Dawn — A splendid new variety for the rockery or border; a low compact plant with dainty rose-pink flowers. **Each 25c**

DIGITALIS — FOXGLOVE

These plants are unsurpassed for their beauty, but are rather hard to winter. Very satisfactory when planted in spring. They are biennials, but often reseed themselves, therefore, may be treated as perennials.

* **Ambigua** — Flowers yellow, marked brown; blooms in July; 2 feet tall. **Each 25c**

Shirley Hybrids — Tall variety with long flower heads, producing large bell-shaped blossoms. Colors of white, shell-pink, many attractively dotted with crimson or chocolate. **Each 30c**

DICTAMNUS — GAS PLANT

Fraxinella — Long spikes of pink flowers, on a bush about 30 inches high. Blooms in June and July, requires an open, sunny position and should not be transplanted often. **Each 35c**

DODECATHEON — AMERICAN COWSLIP

* **Media (Shooting Star)** — A very beautiful plant for naturalizing or for growing in the moist shady border; flowers in umbels somewhat resembling the cyclamen; light rose and sometimes white; about 12 inches high; blooms in May or June. **Each 25c**

DORONICUM — LEOPARDBANE

Excelsum — Large golden yellow single flowers on 2-foot stem. **Each 30c**

ECHINOPS — GLOBE THISTLE

Ritro — Interesting thistle-like plants with globular heads of metallic-blue flowers during July and August; 2 to 3 feet high. **Each 25c**

ERIGERON — FLEABANE

This perennial is an excellent cut-flower, resembling the Michaelmas Daisy, usually with pink and purple flowers. From 2 to 3 feet tall. **Each 20c**

ERYNGIUM — SEA HOLLY

Amethystinum — The true blue Thistle with amethyst stems and bracts; 2 feet high. At its best in July and August; fine for cutting. **Each 35c**

ERYSIMUM

Pulchellum — This plant grows about 1 foot high and blooms profusely with the buttercup-yellow flowers in early spring. **Each 25c**

EUONYMUS

* **Kewensis** — An evergreen creeper with very small dark-green foliage, which is colorful in fall; a beautiful plant for the rockery or for ground cover under trees; does well in shade. **Each 50c**

EUPATORIUM — HARDY AGERATUM

Ageratoides — Similar to the above with white flowers. **Each 20c**

Coelestinum — A fine perennial resembling the Ageratum, growing from 1 to 2 feet tall, and blooms from August until late fall. **Each 20c**

EUPHORBIA — SPURGE

Colorata — Very showy plants much like Baby's Breath; flowers pure white, from June to August. **Each 35c**

Cyparissias — This plant has evergreen foliage with yellow flowers. Blooming from June until September; 18 inches. **Each 20c**

Polychroma — A formal plant with beautiful foliage and bright yellow flowers, blooming from May to July. **Each 35c**

Myrsinites — Prostrate species, bluish foliage with heads of yellow flowers. **Each 30c**

FILIPENDULA

Hexapetala (Dropwort) — Grows from 2 to 3 feet high, has beautiful fern-like foliage and sprays of delicate pure-white flowers in June and July. **Each 35c**

Ulmaria — This variety has deep-cut foliage and graceful spikes of creamy white flowers 3 to 4 feet high. **Each 25c**

FESTUCA — ORNAMENTAL GRASS

* **Glauca** — A Japanese species with large blue-bluish-green foliage, 6 to 8 inches. **Each 20c**

FRAGARIA — MOCK STRAWBERRY

Indica — A trailing plant that produces small yellow flowers and beautiful fruits resembling ripe strawberries; excellent as a ground cover or for hanging baskets. **Each 20c**

FUNKIA — PLANTAIN-LILY

* **Lanceolata** — Glossy-green leaves with spikes of lavender flowers in July and August. Fine for edging; 2 feet. **Each 20c**

* **Glauca** — A pretty dwarf grass with tufts of fine green leaves; fine for the rock garden or in the shady border.

* **Subcordata** — Large heart-shaped leaf with pure white flowers; August. **Each 30c**

* **Thomas Hogg** — This variety has large green leaves with a narrow silver edging; lavender flowers in August and September; does well in shade or sun, but should be well watered. **Each 35c**

* **Undulata Variegata** — Variegated foliage, with mauve flowers. **Each 20c**

GAILLARDIA — BLANKET FLOWER

A well known garden flower which is also very useful for cutting; blooms from June until frost, with large disc-like flowers.

Grandiflora — Large yellow and crimson flowers. **Each 20c**

Ruby — A ruby-red variety having no yellow or brown; free-blooming and very showy. **Each 35c**

FIRST YELLOW GAILLARDIA

Sun God — Very large flowers of pure chamois yellow with firm long stems; fine for cutting; blooms freely from June until frost. **Each 50c**

NEW YELLOW GAILLARDIA

Golden Goddess — A very striking new golden yellow variety that is very hardy and exceptionally free blooming; blooms from June to frost. **Each 40c**

GYPSOPHILA — BABY'S BREATH

Bristol Fairy — Fully double, snow-white flowers. Very graceful, a most useful cut-flower. Certainly the best variety offered. **2-year-old plants, 75c each.**

Repens — A dwarf white Baby's-breath about 6 inches tall; fine for the rockery or border. **Each 25c**

Repens Bodgeri — A new dwarf double-flowering pink Baby's Breath which grows about 18 inches high; color is a delicate flesh-pink; blooms nearly all summer. Good strong plants. **Each 50c**

HELENIUM — HELEN FLOWER

Autumnale Praecox — Remarkable early blooming strain in bronze and crimson-bronze shades; July to September, 3 feet. **Each 25c**

Morheimi — A low-growing, early-flowering variety with large bronzy-red flowers; a perfect companion for Pumilum magnificum, same size, and blooms the same time. **Each 35c**

Pumilum Magnificum — A large-flowering clear yellow variety from 12 to 18 inches high; blooms from July to October. **Each 35c**

Peregrina — A new introduction from Europe with large flowers that have a pleasing blend of coppery-brown and mahogany-red; height from 2 to 3 ft. **Each 35c**

Riverton Beauty — Rich lemon-yellow with large purplish cone; August and September; 4 to 5 feet. **Each 25c**

HEUCHERA — CORAL-BELLS

* **Brizoides** — Flowers are pale pink, and bloom profusely in May; robust foliage and a good grower; 1 to 2 feet. **Each 25c**

* **Sanguinea** — Long stems of large crimson-scarlet flowers; July and August; 2 feet. **Each 25c**

HEMEROCALLIS — DAY LILIES

Bay State — A free-blooming variety of glistening deep yellow; late June, 4 feet. **Each 35c**

Flava (Lemon Lily) — Sweet-scented clear full yellow; 30 inches; flowers in June. **Each 20c**

Fulva (Brown Day Lily) — Coppery orange shaded crimson; 3 feet; July. **Each 20c**

Hyperion — A very outstanding variety; extremely large citron-yellow; July and August, 3½ feet. **Each 75c**

Mrs. W. H. Wyman — Clear lemon-yellow; combines nicely with blue flowers; 4 feet; blooms in late July and August. **Each 50c**

The Gem — A very choice variety of rich deep orange-yellow; blooms in June; 3½-4 feet. **Each 30c**

Thunbergia — Pale lemon-yellow, growing 2 to 3 feet tall; blooms in July. **Each 20c**

NEW HARDY ENGLISH IVY

* **Hedera Helix Minima** — The latest introduction in Hardy Ivy; this variety has unusually small leaves arranged in ladder-like formation; very attractive; does well in shade or sun; give light winter protection. **Each 50c**

HIBISCUS — MALLOW MARVEL

Tall shrub-like plants with large single flowers resembling the Hollyhocks. **Various colors. — Each 20c.**

HOLLYHOCKS

These have been garden favorites for many years. Their tall spikes of showy flowers in such beautiful range of colors cannot be replaced by any others.

Single Mixed Colors. Each 20c

Double Mixed Colors. Each 25c

IBERIS — CANDYTUFT

Sempervirens — Evergreen plants, very fine for rock garden; completely covered with white flowers in the spring. **Each 20c**

JASIONE — SHEEP'S SCABIOUS

Perennis — Like a very dainty lavender-blue Scabiosa; about 6 inches high; blooms in June and July. **Each 35c**

LATHYRUS — PERENNIAL SWEET PEA

Latifolius — Beautiful mixed colors, extremely showy and fine; good climber for covering trellises, arbors, etc.; continuously in bloom. **Each 20c**

LIATRIS — BLAZING STAR

Pycnostachya — A tall-growing perennial, 5 to 6 feet, producing long spikes of lavender-purple flowers. Blooms in July and August. **Each 20c**

* LILLY-OF-THE-VALLEY — CONVALLARIA

Excellent plants for moist shady places; grow about 6 inches high, with dainty spikes of bell-shaped, pure white flowers. **Clumps, each 25c**

LILIUM — LILIES

Formosanum (Usually referred to as **Philippinense Lily**) — Extremely large white lily with trumpet-shaped flowers, shaded brownish on outside of petals. **Each 25c; doz. \$2.50**

Regale — A large-flowering hardy and dependable lily; white with yellow throat and pink hue on outside of trumpet; June and July. **Each 25c; doz. \$2.50**

Tenuifolia (Coral Lily) — A very graceful red lily, height 24 inches or more; grass-like foliage; the blooms have re-curved petals of waxy texture, very artistic and attractive. **Each 20c; doz. \$2.00**

Tigrinum (Tiger Lily) — An orange lily, spotted purple. One that held its place in the garden for many years; always admired; blooms in August and September. **Each 20c; doz. \$2.00**

Willmottiae — A striking orange lily from China; often carrying 20 or more brilliant flowers measuring 3 inches across; blooms just after Regal Lily. **Each 35c**

LINUM — FLAX

Alpinum — A rare species of prostrate habit; stems 12 to 15 inches long, spreading out into a perfect circle, about 6 inches high; large clear sky-blue flowers all summer. **Each 35c**

Flavum — A fine variety with yellow transparent flowers. **Each 20c**

Flavum Compactum Nanum — A very dwarf variety about 6 inches high with rich golden-yellow flowers. **Each 35c**

Perenne — The blue flax, very attractive, both in foliage and in bloom; flowers pale blue. **Each 20c**

Perenne Alba — White form of the above. **Each 20c**

LYSIMACHIA — CREEPING JENNY

* **Nummularia** — A glossy-green creeping plant, resembling the Vinca Vine; small yellow flowers; valuable for planting in wet shady places. **Each 20c**

LONICERA — HONEYSUCKLE

* **Japonica Aureo Reticulata** (Yellownet Japanese Honeysuckle) — A very handsome creeping plant with most beautiful light-green foliage netted and spotted bright yellow; flowers creamy white; very attractive in the rock garden, rock wall, or elsewhere where creeping plants can be used.

Large plants—Each 50c. Small plants—Each 30c

LOTUS

* **Corniculata** — An interesting plant, closely resembling "Shamrock," with beautiful yellow flowers. Each 25c

RUSSELL LUPINES

The strain of Lupines that has created a sensation throughout the flower world. These are very stately perennials with 3 to 5 foot spikes of pea-shaped flowers; individual flowers up to 1 inch across; extraordinary color range. Should be planted in a protected place with good drainage, preferably in a slightly acid soil; give plenty of water during dry weather. Each 50c

LYCHNIS — MALTESE CROSS

Chalcedonica — One of the brightest plants in the hardy border; blooms all summer with vivid scarlet flowers; 3 feet. Each 20c

Viscaria F. Pl. — This is a highly recommended variety which grows about 14 inches high, producing vermilion-red flowers; very attractive. Each 20c

Viscaria Splendens — 18 inches tall; foliage almost evergreen; flowers bright rose. Each 20c

LYTHRUM — PURPLE LOOSESTRIFE

Superbum Roseum — Very showy purple spikes, about 3 feet high, blooming all summer; splendid for banks of streams and ponds. Each 20c

MERTENSIA — VIRGINIA BLUE-BELLS

* **Virginica** — An early spring-flowering plant about 18 inches high, with rich blue flowers; one of the most interesting of our native spring flowers; plant in summer or fall. 6 for \$1.00

MYOSOTIS — FOR-GET-ME-NOT

* **Palustris** — A well known charming plant for the rock garden or for the low border; a beautiful rich blue found in very few flowers; does well in shady and damp places. Each 20c

MONARDA — BERGAMOT

Mollis — 3½ feet tall; lilac-pink flowers about 1¼ inches long in terminal clusters; blooms from June to August. Each 20c

NEPETA — CATMINT

Mussini — A desirable border or rock-plant, especially useful in dry sunny places; grows about 12 inches high, producing lavender flowers in spring, and sparingly during the summer. Each 20c

PACHYSTIMA

* **Canbyl** — A small compact evergreen shrub extremely beautiful; about 8 inches high and spreads to about 18 inches in diameter; very nice in front of evergreens or in the border along walks; extremely hardy; sun or partial shade. Each 75c

* PACHYSANDRA — JAPANESE SPURGE

especially valuable for shady places. This plant is practically evergreen, grows about 8 inches tall and spreads well. Each 20c

PAPAVER — ORIENTAL POPPY

Enchantress — Silvery pink of good substance, probably the largest poppy grown. Each 60c

June Delight — Clear salmon pink, soft and delicate color; edges of petals are beautifully fringed.

Each \$1.00

Lulu Neeley — Bright red with tall and strong stems, giant flowers. Each 35c

Orange — Large single orange of medium height. Each 25c

Olympia — A double orange-red poppy, blooming earlier than all others; about 2 feet tall. Each 25c

Red Cavalier — Glowing cerise; flowers on good strong stems. Each 60c

Trilby — A bright red of the color and size of Lulu Neeley but with crinkled petals and very late.

Each \$1.00

For best results plant Poppies 3 inches deep in July or August. When planted, the crowns should be 3 inches below the surface. Mulch with leaves for the first winter after planting.

PAPAVER NUDICAULE — ICELAND POPPIES

These are very neat and beautiful perennials; they have tufts of fernlike foliage which sends up graceful leafless stems carrying cup-shaped flowers of delicate coloring; they prefer a cool moist soil, a mulch of peat is ideal for them.

Amurense "Yellow Wonder" — Large flowers of buttercup yellow about 2 feet high. Each 25c

Gartref Hybrids — Beautiful art shades with charming penciled edging. Each 25c

Hardy Phlox

Very colorful plants, for the perennial border or among the shrubbery.
Should be in every garden

NEW AND RARE VARIETIES

- Captain Koenig** — Salmon-rose with carmine eye.
- Caroline Vandenberg** — A true lavender-blue without the magenta shades; large flowers.
- Emaine Macha** — New dwarf variety; deep flaming red.
- Erntefeuer** — A late-flowering variety with large panicles of brilliant salmon-orange flowers; tall.
- Jules Verne** — Rich, deep violet-blue.
- Paul Hoffmann** — A sturdy grower with dark-green foliage and deep carmine red flowers.
- Rosenkavalier** — Clear soft rose-pink; very large trusses; good green, mildew-resistant foliage; the best in our Phlox collection last summer.
- Septemberschnee (Septembersnow)** — A very fine new white; has a slight blush of pink in center; tall.
- Troubadour** — Immense flowers of soft rose and white.

Price of any of the above varieties: small plants,
50c each

VERY CHOICE VARIETIES

- Border Queen** — Dwarf-pink; improved Jules Sandeau; very large florets.
- Daily Sketch** — Clear salmon-pink with crimson eye; a very choice variety.
- Iris** — Purplish-violet iris color; very unusual.
- Nordlicht** — Large pink with red eye.
- September Glow** — Deep rose-carmine, very attractive.
- Splendour** — Enormous flowers of rose-pink with deeper eye.

Price of any of the above varieties
35c each; \$3.50 per dozen

PHLOX SUFFRUTICOSA — EARLY FLOWERING HARDY PHLOX

- Miss Lingard** — Waxy-white; 36 in. tall. Each 20c
- Pink Beauty** — A rare color of beautiful mauve-pink; excellent cut-flower; similar in habit to Miss Lingard. Each 20c

OUTSTANDING VARIETIES

- Africa** — Brilliant carmine-red; large flower heads.
- Kesselring** — Dark violet with large white eye.
- Klemm** — Very unusual coloring; nearest to blue, and known as the "Blue Phlox"; large flower heads.
- Leo Schlageter** — Very outstanding, scarlet with deeper eye.
- Lillian** — One of the most beautiful soft pink varieties; a "twin-sister" of Columbia.
- Morgenrood** — Extremely large flowers, a distinct deep-rose pink.
- Painted Lady** — Soft silvery-pink with red eye.
- Pastel** — Lilac blue with star-like white center.
- Royal Purple** — The best purple-blue.
- Ruby** — Very choice crimson-red.

Price of any of the above varieties
25c each; \$2.50 per dozen

STANDARD LOW-PRICED VARIETIES

- Baron Von Dedum** — Brilliant orange-red.
- Enchantress** — Bright salmon-pink; dark eye.
- Evelyn** — Salmon-rose; large full flowers.
- Firebrand** — Bright scarlet-red.
- Flora Riedy** — Tall, pure white, with branching habit; one of the best whites.
- General Petain** — Deep wine-red.
- Graf Zeppelin** — White with red eye.
- John Ramsay** — Very dark, purplish-red.
- Marechal French** — Deep scarlet; red eye.
- Mrs. Ethel Prichard** — Tall rosy mauve.
- Mrs. Jenkins** — Pure white; medium late.
- Orange Queen** — Clear deep orange with a purplish eye.
- Rheinlander** — Lilac-pink with salmon eye.
- Special French** — Fine blush-pink with salmon eye.
- Thor** — Deep salmon-pink; tall grower.

Price of any of the above varieties
20c each; \$2.00 per dozen

* PHLOX DIVARICATE CANADENSIS

The beautiful lavender Phlox, about 1 foot high, which is found in bloom in the woods in early spring. Each 20c

See our Phlox beds when in bloom

PHLOX SUBULATA — CREEPING PHLOX

Alba — Pure white. Each 20c

Autumn Rose — Blooms in spring and again in fall with beautiful rose-pink flowers. Each 30c

Atropurpurea — Deep carmine-red. Each 30c flowers. Each 30c

Lilacina — Pale lilac-blue. Each 20c

Morheimi — Carmine-pink, dense, deep-green foliage. Each 30c

Morning Star — A novelty; flowers pure white with carmine-red center. Each 30c

Rosea — Bright rose-pink. Each 20c

PENSTEMON — BEARD TONGUE

Barbatus Torreyi — These plants are very showy, growing about 30 inches high with slender spikes of coral-red flowers from June to August. Each 20c

Grandiflora, Lavender Queen — Very large, lavender-blue flowers on 3 feet spikes; fine for cutting. Each 35c

Pubescens — Rose-purple shading to flesh-pink; about 2 feet high; fine for dry sunny places. Each 35c

PEROVSKIA — RUSSIAN SAGE

Atriplicifolia — A tall plant with gray foliage and silvery-blue flowers on long graceful spikes; makes a nice effect in the garden and is just the thing for the cut-flower bouquet. Plant in a sunny place. Each 60c

PHYSALIS — CHINESE LANTERN

Franchetti — An interesting plant which grows about 2 feet high, bearing bright-orange, balloon-like pods, which resemble Chinese paper lanterns. They may be dried and kept all winter. Very easily grown. Each 20c

PHYSOSTEGIA — FALSE DRAGON HEAD

Summer Glow — A much improved variety, grows about 4 feet tall having up to 18-inch flower spikes; flowers are rosy-crimson and beautifully arranged in rows on all four sides of the stem; excellent for cutting. Each 50c

PLATYCODON — BALLOON FLOWER

These plants have branching bushes about 2 feet high; have attractive blue or white flowers from July to August.

Grandiflorum — Large deep-blue flowers. Each 20c

Grandiflorum Album — Large white flowers. Each 20c

PLUMBAGO — LEADWORT

Larpenae — Dwarf spreading plants, ideal for border or rockery. 6 to 8 inches high, producing deep-blue flowers in summer and fall; does well in full sun or light shade. Each 25c

POLEMONIUM — JACOB'S LADDER

* **Coeruleum** — 2 ft.; erect ladder-like leafy stems; loose terminal panicles of light-blue flowers; June and July. Each 30c

PULMONARIA — LUNGWORT

* **Saccharata** — A hardy free-blooming perennial resembling the Mertensia, with pink flowers; the large deep-green foliage has silvery spots, which is an added attraction; 12 to 14 inches high. Each 60c

PYRETHRUM — PAINTED DAISY

One of the choicest hardy perennials, with fern-like foliage; growing about 3 feet high; colors ranging from very pale pink to deep crimson. Beautiful mixed colors. Each 20c

RANUNCULUS — BUTTERCUP

* **Acris Fl. Pl.** — A double-flowering bright yellow buttercup, blooming profusely in May and June; 24 inches. Each 20c

ROSA ROULETTI — THE BABY ROSE

A dwarf ever-blooming rose, growing 6 to 8 inches tall, producing nice compact bushes with clear-pink flowers, from early summer until heavy frost; protect somewhat during winter. Small plants, 25c; large plants, each 50c

RUDBECKIA — CONE FLOWER

Hirta Herbstwald — New hybrids with large flowers having rich autumn coloring; about 2 feet high. Each 25c

Newmanni (Black-eyed Susan) — 2 ft.; broad single daisy-like flowers of orange-yellow with prominent blue-brown cone. Each 20c

Purpurea — Peculiar reddish-purple flowers with brown cone-shaped center. 2 to 3 feet; July to October; thrives almost anywhere. Each 25c

SALVIA — MEADOW SAGE

Azurea Grandiflora — Grows from 3 to 4 feet tall producing willowy spikes of pale-blue flowers in September and October. Each 20c

Pratensis-Tenori — Very showy plant of medium height, with deep-blue flowers, which are borne on graceful spikes in racemes. Each 20c

SAPONARIA — SOAPWORT

Officinalis Double White — An excellent plant for hot dry places where many other plants will not thrive; about 18 inches high and covered with double white flowers nearly all summer.

Each 35c

Officinalis Double Pink — Same as above variety except that the flowers are delicate pink. **Each**

35c

SHASTA DAISY — CHRYSANTHEMUM MAXIMUM

These plants hold an important place among the hardy plants; they are very desirable cut-flowers and are fine for the showy perennial border.

Alaska — 2 to 2½ ft.; the popular original giant American "Shasta Daisy"; June and July.

Each 20c

Lawine — A new variety of daisy from Europe, grows about 3 feet tall, and is covered with medium-sized blooms in May and June; makes a beautiful combination with Iris; good cut-flower.

Each 20c

Shasta Supreme — Very large single, a good grower. **Each 35c**

Silver Star — One of the largest varieties of Shasta Daisies; flowers on single stems about 2 feet high; excellent for cutting; blooms later than other varieties; late July and August; if faded flowers are removed, the blooming season will be prolonged. **Each 40c**

Shasta Daisy

SEDUM

These are very hardy drought-resisting plants, which do especially well on sunny places, but most varieties thrive in a limited amount of shade. Most satisfactory rock-garden plants.

Acre (Golden Moss) — Low-growing; flowers of bright yellow.

Acre Minor — Similar to the above but finer foliage and more compact. **Each 30c**

Album — Thick waxy round foliage; pure white flowers in July.

Kamtshaticum — Compact grower; star-shaped golden flowers; 8 inches.

Middendorffianum — 6 inches; numerous yellow flowers.

Nicaense — A valuable variety for the rockery; flowers greenish-white. **Each 30c**

Reflexum — 8 inches; trailing stems; flowers yellow.

Sarmentosum — 5 inches; rapid grower; yellowish-green foliage with yellow flowers.

Sieboldi — 6 inches; reddish stems with alternating opposite leaves; round, thick, rubbery, blue-green with red rim; the bright-pink flowers resemble the Daphne; August and September. **Each 30c**

Spectabile Brilliant — 18 inches; immense heads of handsome showy flowers, of vivid pink; August and September.

Spurium Coccineum — 5 inches; creeping; flowers of rosy crimson; July and August.

Spurium Album Superbum — New free-blooming white flowers; about 6 inches. **Each 35c**

Spurium Salmoneum — New; brilliant red with salmon glow; free-blooming. **Each 35c**

Spurium Splendidissimum — New brilliant carmine-red flowers. **Each 35c**

Stahli — Compact growth; crimson foliage; 6 inches.

Stoloniferum — Trailing; purplish pink; 6 inches; July and August.

Variegatum — Variegated foliage; 6 to 8 inches tall. **Each 30c**

Price, 20c each; doz. \$2.00, except where noted.

*** SEMPERVIVUM — HEN AND CHICKS**

Most attractive hardy, succulent plants for the rock garden and rock-wall. They have rosette-like, thick, pointed leaves, several different varieties.

Each 20c

If you add a few new plants to your garden each year

SAXIFRAGA — ROCK-FOIL

Cordifolia — Plants which form a mass of deep-green foliage about 1 foot high. Flowers light pink in color and bloom in early spring. **Each 35c**

SCABIOSA — PIN CUSHION

These plants resemble annual Scabiosa, except that the perennials have shorter florets at the center.

Caucasica (Blue Bonnet) — Soft shade of lavender; height 24 inches; blooms from June to September. **Each 30c**

House's New Giant Hybrids — Various shades of blue and lavender; many double; blooms from June to October. **Each 30c**

SIDALCEA — GREEK MALLOW

Rose Queen — Erect-growing plants; 2 to 3 feet high with bright-rose flowers; blooms in June and July; excellent for cutting. **Each 20c**

SPIREA FILIPENDULA (See Filipendula page 23)

STATICE — SEA PINK

Latifolia — Plants growing about 2 feet tall, with large broad heads of small deep-blue flowers; may be dried. **Each 25c**

STOKESIA

Cyanea — A 2 ft. bushy plant with attractive large lavender flowers that resemble daisies. Blooms from July to October. Give light winter protection. **Each 30c**

STACHYS — LAMB'S EAR

Lanata — Grown for the effect of the dwarf silvery-white woolly foliage; the flower spikes should be removed. **Each 20c**

THALICTRUM — MEADOW-RUE

* **Adiantifolium** — A hardy plant with finely cut foliage resembling the Maidenhair Fern; very small white flowers in June; fine for use with cut-flowers. **Each 30c**

THYMUS — THYME

These are very low creeping plants, especially valuable for the rockery.

Angustifolius — A narrow-leaved trailing plant for the rockery. **Each 25c**

Citriodorus (Lemon-scented Thyme) — Green foliage; red florets. **Each 20c**

Serpyllum Splendens — A rapid grower with purplish red flowers. **Each 25c**

Tritoma

TRITOMA — RED-HOT POKER

Pfitzeri — Rich orange-scarlet bloom, borne on stems 3 feet high; blooms from August to October; must be protected in winter. **Each 25c**

Towers of Gold — Flowers large, of pure golden yellow on a strong robust plant; blooms in August and September. **Each 50c**

TUNICA — COAT FLOWER

Saxifraga — A nice tufted plant with light-pink flowers produced all summer; 6 inches. **Each 20c**

TRADESCANTIA — SPIDERWORT

* **Purpurea** — A native perennial with long grass-like leaves; about 18 inches high, with purplish-red flowers; thrives well in shade or sun. **Each 20c**

VERONICA — SPEEDWELL

Amethystina — Creeping foliage; 1 foot high with small spikes of beautiful amethyst blue flowers. **Each 20c**

Arenaria — Low-growing compact variety, resembling an Arenaria. **Each 25c**

Filiformis — A prostrate variety with thread-like branches and blue flowers. **Each 25c**

Incana — Deep-blue flowers; gray foliage; 12 inches; June and July. **Each 20c**

Longifolia Subsessilis — Long flowers of deep indigo-blue; July to September; 2 feet. **Each 25c**

Pectinata — Prostrate variety, flowers deep blue with white center. **Each 35c**

Repens — A trailing plant with light-blue flowers; May and June. **Each 20c**

Teucrium Shirley Blue — A prostrate variety with attractive blue flowers; new introduction. **Each 50c**

True Blue — 12 to 15 inches tall; completely covered with intense blue flowers in June and July. **Each 35c**

✱ VINCA MINOR — TRAILING MYRTLE

A trailing evergreen plant, used extensively as a ground cover under shrubs or trees, or on graves where it is too shady for other plants to thrive.
Each 20c

VIOLA ODORATA — SWEET VIOLETS

Cultivated varieties especially fine for cutting, making bouquets of rare beauty and fragrance.

Double Russian — Crinkled double flowers of rich purple-violet color and unusually sweet fragrance. Each 35c

The Czar — A magnificent single; fine blue flowers; long stems and very fragrant. Each 35c

VIOLA CARNUTA — TUFTED PANSIES

Well known dwarf edging plants; hybrids of Alpine Violets and Garden Pansies; bloom nearly all summer if sheared often.

Apricot — Blue — White — Yellow. Each 20c

YUCCA — ADAM'S NEEDLE

Filamentosa — Sword-like evergreen foliage; spikes of 4 to 5 feet with large heads of creamy-white bell-shaped flowers. Each 50c

Variegata — The leaves of this Yucca have a central strip of green with edges of golden yellow. Each \$1.00

QUANTITY PRICES OF PERENNIALS

For those desiring 3 or more plants of a variety we have arranged the following Prices

Plants 25c each; 3 for 70c; Doz. \$2.50	Plants 35c each; 3 for \$1.00; Doz. \$3.50

Perennials will be shipped Express Collect

Tigridias

The Tigridias are charming little flowers, grown from bulbs; they always attract attention; their foliage resembles that of the Gladiolus, but their delicate cup-shaped flowers, with outer edges folded back, have a beauty all their own; they grow about 2 feet high with flowers on top of the spike, and bloom best in July and August. They require about the same treatment as Gladiolus. Size of bulbs 1 inch and up.

Scarlet	Each \$0.20; Doz. \$2.00
Deep Yellow	Each .20; Doz. 2.00
White	Each .25; Doz. 2.50

Ground Cover Plants

EUONYMOUS

These Euonymous make particularly desirable ground cover plants because of their dark-green, dense evergreen foliage. They are very hardy and do well in sun or shade.

Kewensis (Miniature Wintercreeper) — This creeper has very small dark-green foliage, which gives it a very delicate appearance; fine for the rockery or as a ground cover; this will no doubt be a very popular variety after it is better known. Plants in 2½-inch pots — Each 25c. Plants in 4-inch pots — Each 50c

Radicans Colorata (Bronze Wintercreeper) — A rather new variety; has deep-green foliage in summer changing to bright red and bronze in fall and winter. 2-year plants — Each 60c

Radicans Vegetus (Big-leaf Wintercreeper) — Rich deep-green rounded leaves; orange-red berries in fall. 2-year plants — Each 75c

PACHYSANDRA — JAPANESE SPURGE

Terminalis — An attractive ground-cover plant, especially valuable for shady places. This plant is practically evergreen, grows about 8 inches tall and spreads well. Each 20c

VINCA MINOR —TRAILING MYRTLE

A trailing evergreen plant, used extensively as a ground cover under shrubs or trees, or on graves where it is too shady for other plants to thrive.
Each 20c

We have many other plants, listed elsewhere in this catalog, which may be used for ground covers, such as Climbing Honeysuckle, Sedums, etc.

Plant a few Gladiolus bulbs among your taller Perennials

Hybrid Tea Roses

Hardy Field-grown Ever-blooming Roses

- Betty Uprichard** — A pleasing salmon-pink; inside of petals orange-carmine, spicy fragrance; strong grower and persistent bloomer.

Catalonia — Orange-scarlet, one of the most brilliant varieties; richly fragrant and fully double.

Chas. K. Douglas — Scarlet-crimson with large flowers. A profuse bloomer, especially desirable for bedding; a favorite and always in demand.

Condesa de Sastago — A striking two-tone rose with a deep coppery pink inside and golden reverse; fully double with delicious fragrance.

E. N. Perkins — Vigorous grower, double blooms of delicate coloring, light cerise, inside of petals salmon with golden tints.

Editor McFarland — The leading pink rose of today. The firm textured perfectly formed fragrant flowers come freely on strong erect stems, and are notably long lasting when cut.

Etoile de Hollande — The world's favorite red rose. Immense flowers of velvety scarlet-crimson on strong bushy plants.

Golden Dawn — A vigorous free bloomer, with double well-formed fragrant buds that bloom a lemon-yellow.

Heinrich Wendland — Large fully double flowers of reddish copper; back of petals is rich orange; blends well with the red and yellow roses.

Kaiserin A. Viktoria — Long shapely buds, fully double creamy white flowers; an old variety but still considered to be the most perfect white; deliciously fragrant.

Margaret McGredy — Large cupped flowers of solid orange-scarlet; a profuse bloomer and very satisfactory.

McGredy's Scarlet — Velvety brilliant scarlet, shaded rose-pink; beautiful high-centered blooms on long stems.

Miss Rowena Thom — Extra large very fragrant, rose-pink blooms with yellow at base. Fine for cutting, strong and vigorous in growth.

Mme. Butterfly — A steady bloomer with beautifully molded flowers of tender pink, salmon, cream and gold. An old and lasting favorite.
- Mme. Jules Bouche** — One of the most popular of the white Hybrid Teas, with long pointed, high-centered white flowers slightly tinted pink.

Mrs. Charles Bell — Flowers of delicate shell-pink coloring; a sport of Radiance, and very unusual.

Mrs. E. P. Thom — Pure unfading yellow of fine form; one of the best yellow roses; fragrant.

Mrs. G. A. Van Rossem — Two-tone, orange and yellow apricot with a golden base; striking color arrangement.

Mrs. Henry Morse — Two-tone pink; bright carmine on the outside with flesh-pink on the inside of petals. Perfect buds and fine for cutting.

Mrs. P. S. DuPont — The most satisfactory yellow rose for the garden. Double flowers of rich golden yellow; very reliable.

National Flower Guild — A crimson shrub-rose, that makes an ideal hedge or border plant. Very bright red, with large full flowers.

Pink Pearl—Light clear pink, fully double, deliciously fragrant flowers; strong vigorous plant.

President Hoover — Yellow, orange and scarlet in a luscious blend of colors; long stems extremely vigorous, and one of the most popular varieties.

Radiance — Two-toned pink light silvery tone on the inside and deeper on the outside; vigorous free blooming plants.

Red Radiance — Clear genuine red; a sport of the popular Radiance. Well known and always reliable.

Rouge Mallerin — A fragrant long-lasting bloom of burning scarlet; heavy velvety texture; healthy upright plants and one of the finest red roses.

Sister Therese — Golden yellow edges touched with orange-crimson; a beautiful rose and fine cut-flower.

Souv. de Mme. C. Chambard — Beautiful coral-pink flower with a satiny pearl shading; pleasing fragrance; strong upright plants.

Thomas A. Edison — A big, clear sparkling-pink rose, which thrives on heat; blooms especially well during midsummer when many roses like to rest.

Price of any of above varieties: Dormant Plants, each 65c; doz. \$6.50
 Pot Plants, large, each 85c; extra large, each \$1.00

Use Roses for Bedding

Hardy Climbing Roses

Climbing American Beauty — A free-blooming climber with large crimson flowers of fine form; blooms early in the season.

Chaplin's Pink — A good climber with large clusters of pink flowers.

Excelsa (Red Dorothy Perkins) — Very double flowers of light crimson, produced in large trusses; one of the hardiest climbers.

Paul Scarlet Climber — The most vivid scarlet climbing rose yet known; midseason; very hardy.

Any of the above varieties: Dormant Plant's, each 65c; Pot Plants, each 85c

Doubloons (Patent No. 152) — A radiant yellow climbing rose with large compact, double blooms, coming in clusters. Long heavy canes, blooms in midseason and tends to re-bloom later in season. **Pot Plants — Each \$1.65**

New Dawn (Patent No. 1) — The hardy ever-blooming Dr. Van Fleet. An exceptionally good climbing rose, with delicate flesh-pink fragrant flowers. **Pot Plants — Each \$1.65**

Rosa Rouletti — The Baby Rose

A dwarf everblooming rose, growing 6 to 8 inches tall, producing nice compact bushes with clear-pink flowers, from early summer until heavy frost; protect somewhat during winter.

Small plants — Each 25c; Large plants — Each 50c

SHRUB ROSES

Hansa Rugosa — One of the most desirable shrub roses; flowers reddish purple; blooms all summer; grows 5 feet tall. **Each 60c**

Hugonis (Golden Rose of China) — An old favorite, extremely hardy, literally covered with fragrant, single yellow flowers in May; has attractive small foliage; excellent to use as specimens or among other shrubbery; grows about 6 feet tall. **Each 70c**

Why Plant

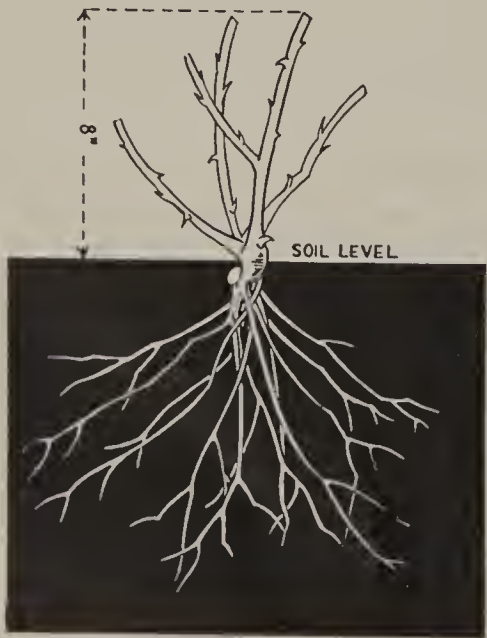

If you plant our Potted Roses you overcome a great handicap in getting roses started. Roses should be planted early in order to get well established in their new location before the hot dry weather begins. Our plants have been potted early, in well prepared, special rose-soil, so they develop a heavy fibrous root-

A "Potted Rose" ready for your garden

Potted Roses?

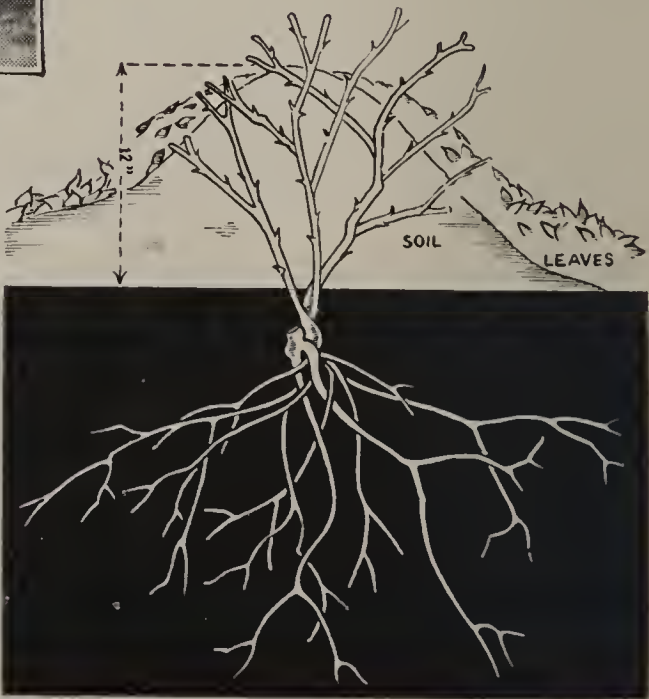

system before they reach our customers' gardens. The roots of potted plants are not disturbed in transplanting. Our Potted Plants have stronger bushes, bloom earlier, and produce more and better flowers. Come out to our Gardens and enjoy the privilege of selecting the best plants and the choicest varieties.

Hybrid Tea Rose properly pruned and planted

Hybrid Tea Rose with proper winter protection

Give your Roses proper winter protection

Polyantha Roses

The Polyanthas are bushy everblooming Roses. The flowers are small to medium sized and bloom in large clusters. They should be given the same winter-protection as the Hybrid Teas. Prune lightly.

Eblouissant — Velvety crimson; small double flowers on a dwarf bush.

Gloria Mundi — Orange-scarlet with medium double flowers; bush of dwarf habit; most popular rose of this color.

Mrs. R. M. Finch — Highly decorative, delicate rose-pink flower; strong grower and fine for hedges.

Any of the above varieties, in Fo'ts, each 85c;
doz. \$8.50

Peonies

The Peony is the Ideal Perennial! Peonies are very hardy and dependable; once planted they bloom year after year with increasing vigor and beauty. Single specimens are on record as having attained an age of over 160 years, and not failing to bloom annually during that period.

Plant Peonies now, and enjoy their presence and beauty for many years to come! Prices quoted are for standard 3-5-eye divisions. If double-size roots are wanted, add 50%. Peony roots shipped *Express Collect*.

Siberian Iris

The Siberian Iris follow the Bearded Iris in blooming; they have narrow foliage and carry the flowers on top of the stem. Excellent for cutting.

- Emperor — Large deep violet flowers on tall stems.
- Orientalis — Late blue
- Snow Queen — Snow-white variety, beautiful form.

Price: 20c each; 3 for 55c

Dwarf Iris

The Dwarf Iris are fine for the border or for planting in clumps among the low-growing Perennials. They grow about 8 inches tall, and bloom with the first flowers in spring.

- Atroviolacea — Dark-purple, very early.
- Le Pactole — Large yellow flowers.
- Marocain — Deep violet-purple, very fragrant. Two weeks later than Atroviolacea.
- Phoebus — Light-yellow, second early.

Price: 20c each; 3 for 55c

Iris Spuria

Similar to the Siberian Iris, but foliage is somewhat heavier; easily grown.

- Monspur — Tall light blue Each \$0.35
- Shelford Giant — Tall cream with gold. Each .50

Japanese Iris

The Japanese Iris probably display the most artistic beauty of all irises. They bloom in July with beautiful heads of single or double flowers at the top of a graceful spike. Should be planted in a well-drained location, and should be kept well watered just before and during blooming season.

- Aifukurin — Single; white ground suffused and heavily edged violet; a very beautiful variety.
- Jeanette Parry — Single, white, suffused with lines of bluish violet.
- Kongo San — Double, dark-blue.
- Margaret S.Hendrickson — Triple; soft bluish violet, large wavy petals; white center with cast of blue.
- Marjorie Parry — Double; delicate light-mauve, tufted center. Extra fine.
- Nishiki Yama — Double; rose-red, suffused white in center.
- Osamaku-miyo — Double; ivory-white; veined blue.
- Pres. Harding — Double; heavy, thick-petaled, massive flowers, produced toward the end of the season; fine light-blue with darker shadings.
- Shiranami — Double; large white with ruffled petals.
- Yurushi-no-iro — Color a beautiful rich mahogany.

Any of the above varieties — Each 35c
3 for \$1.00; Doz. \$3.50

Gladiolus

Abbreviations: L. — large; M — medium; S. — small; Blts. — bulblets

ANNUALS

● Our greenhouses are just filled with a complete assortment of thrifty plants to be used for bedding or for cut-flowers, such as, **Geraniums, Pansies, Petunias, Cannas, Coleus** and a long list of others. These plants will fill your garden with delicate and brilliant colors from spring until frost. Come out to our greenhouses and make your selections early.

LAWN SEED

- We offer only strictly high-quality Lawn Seed. This seed is a well balanced mixture of the best lawn grasses of high-testing purity. It produces a thick, velvety, permanent lawn.
- We do not carry stock of the cheaper grasses because they are mostly fast-growing, short-lived varieties that prove unsatisfactory after the first season.

Sunny Mixture — Especially prepared for open lawns that have no heavy shade.

1 lb. 40c; 5 lbs. \$1.85; 10 lbs. \$3.50; 25 lbs. \$8.25; 100 lbs. \$30.00

Shady Mixture — This mixture contains grasses that do especially well in shade. Also does well in the sun.

1 lb. 50c; 5 lbs. \$2.35; 10 lbs. \$4.50; 25 lbs. \$10.75; 100 lbs. \$40.00

For best results use 1 lb. for every 300 sq. ft.

FERTILIZERS

VIGORO

A complete Plant Food

1 lb.	\$0.10
5 lbs.45
10 lbs.85
25 lbs.	1.50
50 lbs.	2.50
100 lbs.	4.00

Driconure — A new all-organic plant food scientifically blends cow manure, peat moss and poultry manure.

Safe — Clean — Easy to Use.

Price: 50 lb. bag, \$2.25; 5 bags, \$10.50.

Illinois Customers: Please add 3% to our prices on account of Occupational Tax

For better lawns use our high-quality Lawn Seed

PEAT

MOSS

GPM, the best quality Peat, will give surprising results. It preserves moisture and stimulates root-action. **20-bushel bale \$4.25** (Delivered in Vicinity).

BLACK SOIL — \$2.00 per yd. (Delivered in Vicinity).

SPECIAL PREPARED SOIL with humus and organic fertilizer. Ideal for flower-beds or top-dressing on the lawn. — **\$4.00 per yd.** (Delivered in Vicinity).

UPRIGHT JAPANESE YEW (*Taxus Cuspidata Capitata*)

This is one of the most useful Evergreens, suitable for foundation planting, formal effects, or for hedges. It grows very well in shade, and will also do better in the gas and smoke of the cities than any other Evergreen. Foliage is deep glossy green.

For prices see page 6.

For DWARF and SPREADING YEWS see page 6.
